

Login Test Execution Report – 20.05.2025

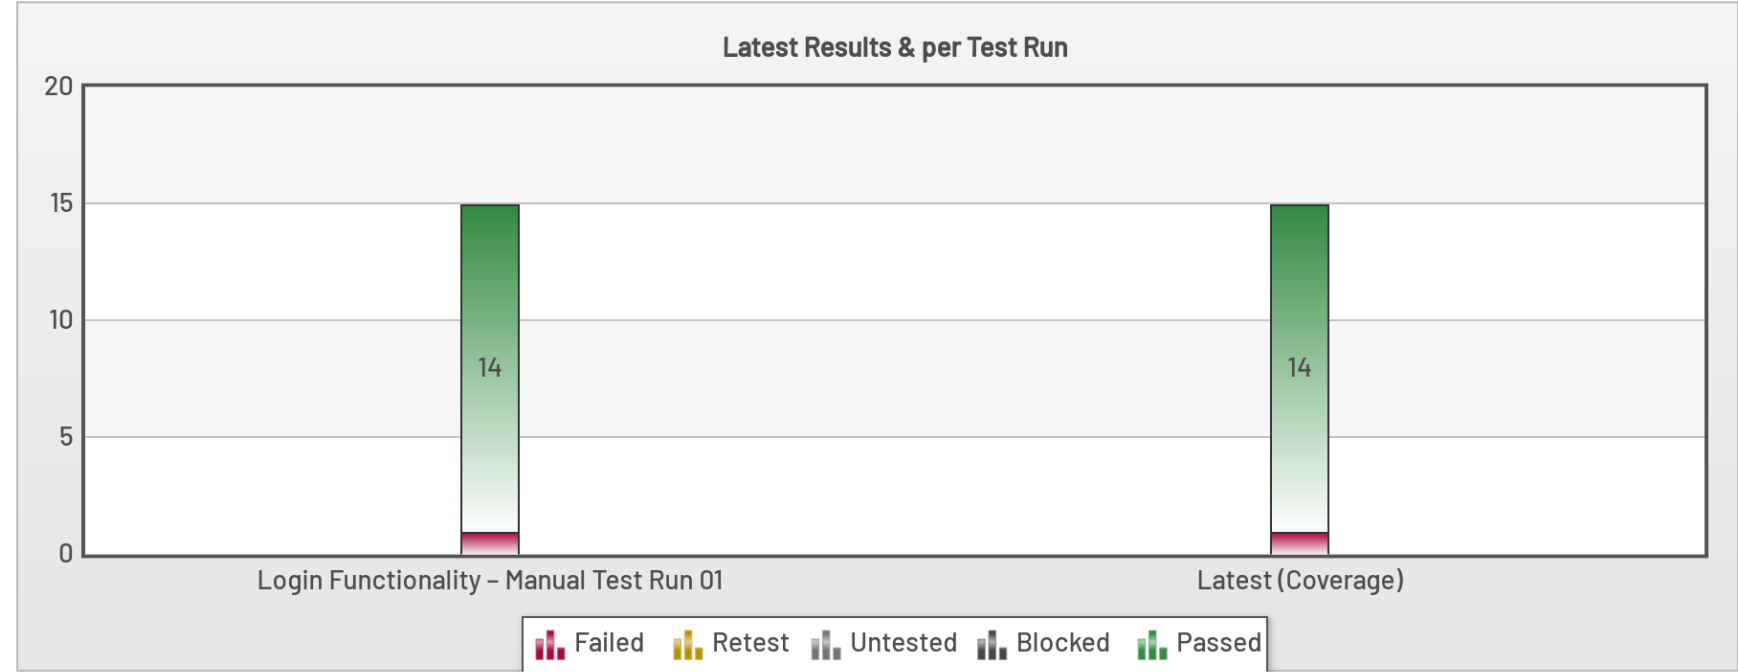

Project: Manual Test Cases – Login Functionality

By Marian Sopoliga, 5/21/2025 9:42 PM

This report summarizes the results of functional manual testing for the Login Module, covering 15 test cases (C1-C15).

The objective was to verify expected behavior for both valid and invalid login scenarios, including edge cases such as empty input fields, overly long strings, and special character handling.

Testing was performed manually on 20/05/2025 using Google Chrome (version 136.0.7103.114, 64-bit) on Windows 10, with a screen resolution of 1920×1080.

Test Runs

?

? The statistics and percent numbers of this report only include the test cases that match the selected filters, if any.
